NI Nutrition Informatics

Certificate Program in Health and Nutrition Informatics

The Certificate in Health and Nutrition Informatics program is designed to equip students with the knowledge and skills necessary to harness the power of technology in the field of nutrition and healthcare. This innovative program bridges the gap between traditional nutritional science and modern informatics, providing a comprehensive understanding of how data and technology can be leveraged to improve health outcomes.

ADMISSION OPEN - BATCH 4

Foundation of Healthcare Technologies Society, New Delhi, India

St. Ann's College of Women, Hyderabad, India

Student Stories

> "The course material was well-structured and simple to understand, making it accessible even to someone with limited prior experience of informatics like me."

- **Eligibility: Any undergraduate/ graduate/ postgraduate/PhD/working professionals**
- **Program Fees: INR 12,000/-**
- **Duration: 16 Weeks**
- **Credits: 08 Credits**

> "Throughout the course, I honed invaluable skills like human-centred design interventions, statistical analysis, and digital literacy"

RECOMMEND

FEATURES

- **Synchronous and asynchronous learning**
- **Weekly interactive lectures**
- **Engage in weekly discussions**
- **Participate in problem-solving exercises**
- **Analyze case studies**
- **Assess learning through quizzes**
- **Attend research seminars**
- **Gain experiential learning opportunities**
